How to make a Jelly

## Ingredients:

Jelly cube  
Cold water  
hot water

## Equipment:

Fridge  
Bowl  
Spoon  
cup Jug

## Method

Wash your hands. Get a bowl.  
PUT some jelly cubes in it.  
Then some hot water goes in  
it. Then stir it until it  
dissolves. Then PUT some cold  
water in it. gently. Then stir  
it again slowly. Then leave it  
in the fridge for a day  
and when it is set you can  
eat it, happily. // Super instructions
